#### GREENEVILLE NEWS

Danger In Sliding When Coasters Go Across Trolley Tracks.

An eight year old boy, who was sliding down Seventh street Sunday afternoon about 4 o'clock just escaped the wheels of a trolley car bound for Frankin square. The boy had appeared around the corner above Prospect street and was going at a fast rate when it was seen by several spectators that he would just about reach the trolley tracks when the car reach the trolley tracks when the car would pass. David Goldblatt and would pass. David Goldblatt and others motioned to the motorman to stop and he did so within a few feet of the boy. Seventh street is long and un-usually sleep and great care should be used by the children who slide there. It is said this is not the first parrow escape during the past two weeks.

Second Car Ready.

No. 157, the second of the Central Village cars has been painted the standard green color of the Shore Line Electric comprint, at the Greenville carbarn. The ceiling has been changed from green to ivery white which gives the interior of the car a lighter an more comfortable appearance, car is varnished inside and out. seph Wooley is the foreman painter at

CITY OF WORCESTER GOES TO JUNK HEAP.

Edward W. Buxton Buys Steamer and Breaks It Up for Junk.

Edward W. Buxton, 400 Lincoln treet, of E. Buxton & Sons Co., bron, steel and metals, of Worcester, has cought the old Norwich line boat City of Worcester, which used to run be-tween New York and New London. This boat was built in 1281 at a cost of rearry \$1,000,000, and was known as the Queen of the Sound. The boat was condemned a short while ago, and it was sold to Edward Euxon last week, who is having it broken up at Stenington for the iron, steel and metal in it.

Has 600 Eggs in Incubator. Franklin Rumford of Norwich and his brother-in-law, C. W. Pedwick, have started up their fine incubator plant at their farm near Niamits. The capacity of the plant is 1,200 chicks, and 600 eggs are already in two of its four compartments.

The relier is 20 feet long and the

four compartments.

The cellar is 30 feet long and the broader runs 76 feet. Each of the pens is 12 feet long by 6 feet wide, the compartments being built with the most modern companent. The heat is kept at 103 degrees by the accurate regulation of the thermostat, all portions of the plant legislation to date in tions of the plant being up to date in every particular.

A Washington Tea.

Miss Edna Lerou of Pearl street en-tertained a party of friends at a Washngtonington tea Monday afternoon. Sames were enjoyed and Miss Norma Paulsen rendered pleasing piano se-lections. The guests were Misses Mary Ewen. Theresa Harding, Ruth Harding, Georgia Fillimore, Lila Paul-sen and Norma Paulsen.

Tame in Comparison. After the Murphy-Sulzer row and the Thaw and Schmidt cases, however, a mere earthquake can scarcely be a mere earthquake can scarcely be expected to shock New York.—Chicago

### FOR TROLLEY FREIGHT TERMINAL

Shore Line Electric Railway Co. Preparing Building at New London Where President Perkins Offered Quarters in Connection With Coming New London County Farm Bureau.

tures and brisk northwesterly winds, followed by clearing conditions.

The outlook for Wednesday is generally fair and continued cold.

Observations in Norwich.

The following records reported from Sevin's pharmacy, show the changes in temperature and the barometic changes Monday.

7 s. m. 20 30,20 12 m. 23 30.23 12 m. 23 30.23 12 Highest 36, lowest 20.

Comparisons.

Plans have already been made by the Shore Line Electric Railway company and work is soon to be begun in altering over the old Boss cracker factority in New London into a commodition with the New London into a commodition to register Perkins offered on behalf of the road to furnish quarters to be used in connection with the New London county farm bureau which is to be formed. This offer was made at the formed. This offer was made at the meeting of the farm bureau delegates held here last Friday.

Comparisons.

.Permission to Extend Tracks. The Boss property has been purchasd from the Savings Bank of New London, which held it under a mortgage foreclosure by the Storing and Leasing Co. Upon the completion of the extensive alterations it will be leased to the Shore Line Electric Railway Co., which will operate the terminal. Permission to extend the company's tracks from the Parade to the pany's tracks from the Parade to the terminal in Water street has already been totained from the court of common council. The company was also given the right to run steam cars on its Waler street line only.

Two 44 Foot Entrances

In making the change in the Boss building the idea is of course to se-cure as large and convenient a freight terminal as possible. To this end there will be two 44 foot entrances to the terminal, one on Water street and the other on a strip of land owned by the Storing and Leasing Co., running by the south side of the building from Potter to Water streets. Double Potter to Water streets. Double tracks will run into the building from the Water street entrance and between them will be a platform for loading and unloading freight.

The side entrance will be granite paved and is intended for the use of

trucks and teams coming down the private way from Potter street, A big platform running close to the big platform running close to the tracks is inside this entrance, making it a simple matter for teamsters to unload and to get a consignment from

A large portion of the second floor will be removed to permit the entrance of the trolley freight cars and steam railroad curs. The third floor will be braced by iron girders extending downward and also by supports from the ground floor. Two offices will be located at the rear of the second floor. All space in the building not required for other purposes will be devoted to

Roller doors of the type used in all metropolitan terminals will close the entrances after business hours.

President Perkins' Clear Explanation. The unexpected offer of the Shore Line Electric Railway Co, both as to the money they would give towards the farm bureau plan and the space in the trolley freight terminal was received with expressions of gratification and as President H. R. Branche of the Norwich Business Men's association said made what had seemed like a very big proposition much easier like a very big proposition much easier to undertake and sure of accom-In the course of his clear presenta-

tion of the subject before the meeting and the plan he had to propose, President Perkins said that he had become enthusiastic on this subject of co-op-eration between the agriculturalist and the trolley road ever since he had attended a meeting in Boston where he had learned what had been done in Maine along the same line.

Uses 80 Millions in Farm Produce. was shown by statistics that in 1850 eight out of ten of the population in New England was on the farms. Now it is entirely different, and while Connecticut consumed 80 millions in ecticut consumed 80 millions products, 60 millions of t amount was brought in from outside the state. We are looking abroad for very sustenance, it would appear and this seems to be an arraignment of the Connecticut farmer. But one of the difficulties of the farmer at the present time is to get rid of what he produces at a figure which would represent a fair return to him, and it is to better this condition that this move-ment for co-operation is attempted; for if the farmers were organized as in other parts of the country they could ship to advantage and the possibility of disposing of their produce would consequently increase the output. This is no experiment, for it has been successfully tested and tried out with the citrus growers of California, the apple growers of the Hood River Valley, Orecon, and the many growers of early vegetables in Texas.

Do Away With Tremendous Waste. It has been shown, Mr. Perkins said that there is a tremendous waste be-tween the cost of production and what the ultimate consumer pays, and this is not all a profit for somebody. It is estimated that of the nine billions raised by the farmer, three billions is consumed on the farmer, three binions is consumed on the farm, leaving six bil-lions to be sold, and this six billions ultimately realizes thirteen billions. It is partly to get rid of this tremendous waste that this movement that is almost universal has been started. New London county does not want to be be-hind the procession, but she will be if she does not move quickly in this mat-ter, and get into line to get some of money that will be available, for it is probable that Windham and Mid-dlesex counties are ready to take hold.

Offer of Shipping Facilities. The interest of the Shore Line Electrie Railway company in this matter was not purely philanthropic, he said, for it was bound to profit if this terri-tory can be built up. In addition to the \$1,090 which they would offer to contribute for the New London county farm bureau for the first year, with \$500 for each year thereafter, the road was willing to contribute a certain por-tion of the second floor in the Boss building in New London, which they were arranging for a trolley express station. This space could be used for an assembling and distributing point for the farm produce that might be brought in. There were connections with the Central Vermoin tracks and through them to the New Haven system. In Norwich the Shore Line roadhad unfortunately not been able to

When You Cough There is nothing better than

Hale's Honey Of Horehound and Tar

Contains no opium nor anything injurious.

> Sold by Druggists. TRY PIKE'S

> > **Foothache** Drops

connections from the Davenport build-ing with the New Haven tracks.

President Perkins told the meeting that the farmers were really in the best business in the world, for they showed 16 per cent, profit, while in railroading the profit was a fraction over 4 per cent, and in street railways a fraction over 3 per cent. Moreover, the farmers, who are about the only people who the government says can combine without being punished for it, are the ones that don't want to combine. New London County's Great Opportun-

ity. C. D. Jarvis of Storrs, who is directing this farm bureau work for the state, said that New London county certainly had a great opportunity provided for it, especially in this offer of the storehouse by the trolley company and the facilities and support offered by the Shore Line Electric Railway company and he could see no reason by the Shore Line Electric Railway company, and he could see no reason why New London county could not operate such an organization as had been suggested, for which it has remarkable opportunity in a territory where conditions are ideal. The important thing now is to get the owner. where conditions are ideal. The important thing now is to get the organization underway so that it can have the \$1,000 that is available from the state as soon as the county organization will say the word. Mr. Jarvis, who is also a representateive of the federal government, said there would be some money available from that source after the first of July, and that naturally the counties that were organized would get the first allotments.

SEEKS COURT CONFIRMATION OF \$27,500 SALE

B. H. Jerome Estate Trustees Ask Approval of Sale Made in New Lon-

By a suit just brought in the superior court and returnable on the first Tuesday in March, Alfred Colt and Albert W. Crosby, both of New London, ask for confirmation of the sale which they have made as trustees in disposing of property on Pequot avenue and Lower Boulevard, New London, for \$27,500 to James D. Lynch of New York.

Mr. Coit and Mr. Crosby bring the application before the court as trustees

don, for \$27,500 to James D. Lynch of New York.

Mr. Coit and Mr. Crosby bring the application before the court as trustees of a trust created in the will of Benjamin W. Jerome, late of New London, deceased, for the benefit of Sara E. H. Jerome new Mrs. Sara E. H. Jerome Leath, of Wilson, N. C. Mrs. Leath is named as one of the defendants in the suit and the others are Hadial A. Hull, state's attorney, Mrs. Abbie J. Ogden Damon, Mrs. Bessie Ogden, Miss Lavinia Ogden, Mrs. Ida St. C. J. Lipplit, Grace Lipplit, Charles Ogden, all of New London, Miss Minerva H. Jerome of East Marion, L. L. Jesse J. Brown of Oxford, N. Y., Luckus H. Graham of Newtonville, Mass., Louis H. Jerome of Providence, Albert Jerome of Montville and James D. Lynch of New York.

The Benjamin W. Jerome estate included this real estate mentioned, also a piece of beach property adjoining it, and a tract in Waterford known as Shore Rock. The matter of determining a boundary between Shore Rock and the land of Edward C. Hammond, which bounds it, is also involved in these court proceedings. On all other sides except where the Hammond property comes, the Shore Rock estate is bounded by Long Island sound.

### TAFTVILLE AFFAIRS

Young Men of Congregational Church Give Reception to Rev. D. B. Mac-Lane-Gifts Presented.

Monday evening Rev. D. B. Mac-Lane, who is to leave the latter part of this week for Jamaica Plains, Mass., was given a reception by the young men of the Congregational parish Kyles' four piece orchestra furnished an exquisite concert programme, and Oscar Heinrich was heard in several well rendered vocal selections. In bewell rendered vocal selections. In behalf of those present Victor Davis presented Rev. Mr. Mariane a handsome signet set consisting of the clasp, stick pin and cuff links. Rev. Mr. MacLane acknowledged the gift in appreciative words. Rev. Mr. MacLane entertained with his violin lecture. Around the World in Forty Tunes, and refreshments consisted of Robert Brierly, chairman, Arthur Schofield, Victor Davis and Richard Kyle.

Birthday Party.

Birthday Party.

Pierre Charpentier of No. 1 Providence street was pleasantly surprised at his home by fifty of his friends who assembled to help him celebrate his twenty-fifth birthday. During the evening the guests presented him a handsome meerchaum pipe and a shaving set for which Mr. Charpentier expressed him thanks. Solos were rendered by E. Frechette, who was accompanied by his daughter. Miss Alice Frechette and vocal selections were also given by A. Patinaude, Miss Dora Gaucher, and J. B. Frechette, who was accompanied by Miss Angelina Charpentier. Games of all kinds were piayed and refreshments including fruit were served by the Misses Anna Charpentier and May L. Frechetts. The party broke up at a late hour, all wishing Mr. Charpentier many more happy birthdays.

Guests from out of town included: Miss Emelie Arsenault of the Hely Family academy, Baltic; Miss Reida Deslandes of St. Pre, P. Q., and also Joseph Frechette of Wovcester, Mass. Plerre Charpentier invited all the guests to accompany him on a sleigh

Jeseph Frechetts of Wovcester, Mass. Pierre Charpentier invited all the guests to accompany him on a sleigh ride to Jewett City and Norwich. They accepted and had a very enjoyable time. While in Jewett City they stopped in a lunch room and had lunch. Red fire was burned all the way. The chaeprones were Pierre and Miss A.

Charpentier. They have planned for a sieigh party on Tuesday night and they will attend the Batile carnival.

A Correction.

Further investigation shows that the item published in our issue of January 31st. 1814, about Dieudonne Chaput, of Tafiville, was unjust and unfair to this boy, as he was not guilty of any of the mischlef attributed to him in that item.

He has two sisters, the older of whom is 8 years of age, and who was a school on the afternoon in question and the younger of whom is three years old and was at home all of that afternoon; so that the occurrences charged in that news item could not have happened.

have happened.

It is regretted that the unpleasant statement was printed, and we giadly publish this explanation and correction in justice to the boy and his parents.

### Expectancy!

You hope to keep your teeth for life. Everyone

But is your expectancy really an honest one? If you know you have an "acid-mouth" and fail to use Pebeco Tooth Paste—the one dentifrice which really stops "acidmouth"-can you in all fairness expect to keep your teeth for life?

### Pebeco Tooth Paste

Be honest with your teeth. Give them the chance they ask for. Find out, by using Pebeco "test & papers," whether you have an "acid-mouth" (9 out of every 10 do). If you have, there's but one choice-Pebeco-it overcomes "acid-mouth."

But Pebeco efficiency does not stop here. It cleans - whitens - and polishes teeth beautifully.
